The main It is to know how to present the information, how to choose the site design and effectively use the layout elements that encourage a visitor to get to the place. You can modify everything with a few clicks. Colors combined very well and does not irritate the eyes. You will never regret if you decide to use a minimalist layout with a clear background. And only the internet can help. Only HTML, CSS and JS (and jQuery) are used, so make any changes will be true. Note, your website may seem simple, but when it comes to functionality, it will surprise you. In addition, the theme has a good set of page layouts that will make your site exclusive. It contains a block of registration and news in the sidebar. This theme is perfect for personal sites, blogs of polic and state figures and other notes -
